

# NU-QUAT GREEN APPLE

**Neutral Disinfectant – Cleaner - Deodorizer**

**Form:** Liquid  
**Color:** Clear, Green  
**Odor:** Characteristic  
**pH:** 7.4-8.4  
**Solubility (in water):** Soluble  
**(in mineral spirits):** No data available  
**VOC Content (% by weight):** <1%  
**Flash Point (Closed Cup):** >200 °F  
**Specific Gravity:** 1 g/ml  
**Density:** 8.32 lbs /gal  
**Storage Stability (at 70°F):** 1 year

<u>Ingredients</u>	<u>C.A.S. #</u>
Water .....	7732-18-5
Didecyl dimethyl ammonium chloride .....	7173-51-5
n-Alkyl (50% C <sub>14</sub> , 40% C <sub>12</sub> , 10% C <sub>16</sub> ) dimethyl benzyl ammonium chloride .....	68424-85-1

**GENERAL USE DIRECTIONS:** Not for use on living humans or animals. Do not use in combination with soap or any other product. Working solution should be freshly prepared, used only once, and then discarded; it may not disinfect properly if reused, diluted, or soiled. Prepare the working solution by diluting 2 fl. oz. of this concentrate to 1 gallon (16 mL/L) with potable (drinking) water. Remove gross filth and heavy soil deposits from surfaces. Apply the working solution with a mop, sponge, cloth, or by spraying or soaking, making sure surfaces are thoroughly wetted. Allow surface(s) to air dry. Except for HIV-1, complete disinfection requires a minimum contact time of 10 minutes at about 68 °F. Rinsing is not necessary unless surfaces are to be coated (waxed, polished, painted, etc.). NU-QUAT GREEN APPLE is effective against HIV-1 in 4 minutes at room temperature (68 to 77 °F).

**CONSULT PRODUCT LABEL FOR DETAILED USE INSTRUCTIONS.**
