RELEASE EASE is an asphalt release coating that provides a molecular film that prevents the sticking and adhesion of asphalt. RELEASE EASE produces a thin heat resistant shield that provides a "slick" surface such that hot, sticky asphalt simply rolls off. RELEASE EASE also provides protection for your equipment surfaces. This unique coating stays in place providing protection from asphalt deposits and from the damaging effects of rust and corrosion. RELEASE EASE has also been tested and approved for use by the Georgia and Maryland Departments of Transportation.

DIRECTIONS FOR USE:

RELEASE EASE is easy to use. Simply mix 1-1/2 quarts of **RELEASE EASE** in 2 gallons of water. Spray equipment thoroughly with solution. Agitate solution during use. Allow equipment to dry before putting into service. For best performance, equipment should be treated before each use.

NFPA® RATINGS:

Health: 2; Flammability: 0; Reactivity: 0

INGREDIENTS/CAS #:

Water/7732-18-5; Distilled Tall Oil/8002-26-4; Tetrasodium Ethylenediamine Tetraacetate/64-02-8; Potassium Hydroxide/1310-58-3; Sodium Hydroxyacetate/2836-32-0
