

# TETRA-CHLOR

## Low Temperature Ice Melter

**Form:** Granules

**Color:** Blue

**Odor:** None

**pH:** N/A

**Solubility (in water):** Soluble  
**(in mineral spirits):** Insoluble

**VOC Content (% by weight):** N/D

**Flash Point (ASTM D-7821):** Non-combustible

**Specific Gravity:** 1.99 g/cm<sup>3</sup>

**Density:** 16.61 lbs/gal

**Storage Stability (at 70°F):** 1 year

<u>Ingredients</u>	<u>C.A.S. #</u>
Sodium Chloride .....	7647-14-5
Potassium Chloride .....	7447-40-7
Calcium Chloride .....	10043-52-4
Magnesium Chloride.....	7786-30-3
Blue Dye .....	No CAS Number

Use on...
• <b>Sidewalks</b>
• <b>Driveways</b>
• <b>Steps</b>
• <b>Streets</b>
• <b>Loading Docks</b>
• <b>Porches</b>
• <b>Ramps</b>
• <b>Drain Pipes</b>

**DIRECTIONS:** Spread at a rate of about 1/4 cup per square yard. Leaves no messy white residue to coat sidewalks or to be tracked into buildings. Remove slush immediately to prevent penetration of porous areas and cracks in the concrete, as continual thawing and freezing action can cause damage to poor quality concrete. Will not harm carpet or flooring.

**PRECAUTION:** Do not use on concrete less than 2 years old. TETRA-CHLOR should not be used on pre-cast masonry walks or steps, or on any questionable quality concrete or used in excessive amounts. Excessive amounts may cause surface flaking or scaling and increase the freeze/thaw cycle increasing the chance of chipping and cracking.
