For industrial and commercial use only.

For additional information, see Safety Data Sheet.

Finally, a viable solution for those problem chores. **CITRA-SOL** is an emulsifiable product featuring remarkable natural citrus extracts. It quickly penetrates and dissolves thick deposits without the hazards associated with petroleum distillates or chlorinated solvents. **CITRA-SOL** readily mixes with water making it ideal for those tough cleaning jobs in locations ranging from wastewater treatment plants and septic tanks to household drains. A highly effective deodorant, 1 to 5 parts per million of **CITRA-SOL** added to filter and drying beds counteracts objectionable odors leaving the fresh aroma of orange peels. Routine janitorial chores are made easier and more pleasant by incorporating **CITRA-SOL**'s powerful and fresh scent. The applications for this incredible product are unlimited, why not put it to the test today!

DIRECTIONS:

SEWAGE TREATMENT: To neutralize problem odors, use **CITRA-SOL** undiluted at a rate of 1 to 5 parts per million of untreated waste. This remarkable product will not harm metal, concrete or most plastic. It will not affect the natural bacterial digestive process. Use a 2 % solution for daily spraying of filter beds.

DRAINS: Pour 1 pint of concentrate into drains. Allow to remain 2 to 4 hours and flush with water. Routine treatment programs with regular additions of **CITRA-SOL** added weekly will significantly reduce the grease accumulation in grease traps and drains.

DEODORIZING: Use 1 gallon of concentrate diluted with 100 gallons of water. Apply 100 gallons of spray mixture to 2000 to 3000 square feet of garbage dumps. Apply for instant deodorizing in refuse trucks, restrooms and offices.

GENERAL CLEANING: Use full strength to remove chewing gum and/or candle wax from soft surfaces such as carpet, rugs, upholstery, or fabric. A solution of 1 to 2 oz. per gallon of clean water is ideal for cleaning and deodorizing walls and floors in schools and offices.
