**TO OPERATE VALVE:** Place several layers of newspaper or pad on stand or table in the center of the room. To lock fogger valve in open position for automatic discharge, press valve button all the way down hooking in catch. Then place fogger on the stand or table. Leave building at once and keep building closed for two hours before airing out. Open all doors and windows and allow to air for 30 minutes. Repeat spraying in two weeks or when necessary.

**To Kill Fleas and Ticks:** Destroy pet's old bedding and replace. Use product as above. Treat dogs and cats with registered tick control product prior to re-entry.
